

## PAIR A DEVICE WITH WI-FI

**BA** To put the device into pairing mode, press and hold the power button for approximately 5 seconds until the tape light starts flashing, then release the button. The device is now ready to be paired.

## CREATE A HOME

5 Tap the "Me" button at the bottom of the screen, and then "Home Management".

Select the "Create a home" button to set up your home.

#### 9A Select your 2.4GHz Wi-Fi Network name and enter password then click "Next."

The pairing status screen will appear.

# ADD A DEVICE

6 Tap the (+) button on the top right corner to access the action menu, then select "Add Device".

Select device type from the listed categories.

#### PAIR A DEVICE WITH WI-FI/BLUETOOTH

Note: Verify your mobile device is connected to a 2.4GHz Wi-Fi Network and that you have Bluetooth turned ON for connection.

**BB** For Wi-Fi/Bluetooth enabled devices, you will see a pop-up indicating that there are unpaired devices in the area. The device does not need to be in pairing mode.

Tap "Add" and select the devices you would like to connect.

### SHARE A HOME

11 From the Home Management screen, select the Home that you would like to share.

> Tap "Add Member" and select the way that you would like to send the invitation
