S29807

S29806

Features

- Realistic Flame Mode Effect
- Continuous Light Mode Capable
- Safe Alternative to Open Flames

Applications:

- Indoor
- Covered Outdoor
- Restaurants, Hotels, Bars, Places of Worship, Patios, Gardens

Create an alluring ambiance to any indoor or outdoor environment with SATCO's new LED Flame accent lamps. Imitating the realism of a flame through the use of LED color changing technology, these lamps create a gentle glow that dances and flickers without the risks associated with an open flame.

These energy efficient lamps are dual mode capable allowing them to operate in flame effect or continuous light mode for when a steady warm light is preferred. The T19 model possesses an integrated gravity sensor and automatically switches the flame orientation whether installed in a base up or base down fixture.

Installed in lanterns, chandeliers and sconces, these lamps are ideal for restaurants, places of worship, hotels, bars, gardens, patios, walkways, bathrooms and living rooms for indoor and covered outdoor applications.
