50FT RANGE

FOR COMPATIBLE STARFISH PRODUCTS SCAN HERE:

The STARFISH® by SATCO Programmable Smart Remote offers alternative control over smart lighting, once the lighting devices are paired to the STARFISH® App. Users can adjust the lighting within a 50-foot radius, allowing for convenient remote operation across multiple devices. The remote enables control over key lighting parameters, including brightness levels, color temperature adjustments, and the ability to cycle through a range of colors and dynamic effects. These features provide users with a customizable and versatile lighting experience, perfect for creating specific atmospheres or enhancing the functionality of any space. The integration of the programmable remote in conjunction with the Starfish App, ensures an intuitive and responsive interface for a wide range of lighting operations.
